Test Engineer with 2+ years of experience in Manual and Automation Testing across Healthcare and Banking domains, skilled in Selenium WebDriver, API Testing, REST Assured, and Agile methodologies.

EDUCATION

Shree Jay Kumar Rawal Institute of Technology
Bachelor of Engineering in Computer Science
GPA 8.1/10.0

Dondaicha, India
2021 – 2024

WORK EXPERIENCE

Aurionpro Solutions

Mumbai, India

Software Test Engineer

Aug 2024 – Present

- Tested Med Clarity healthcare platform (billing, registration, reporting), improving test coverage by 25% and ensuring 99% workflow stability.
- Built SQL validation scripts to audit patient records and financial transaction logs, catching data discrepancies early.
- Automated regression testing using Selenium WebDriver and TestNG, cutting manual effort by 35%.
- Collaborated with US-based stakeholders to align testing with healthcare compliance and release standards.
- Tested banking platform modules (onboarding, transfers, transactions) using Postman, REST Assured, and SQL.
- Designed positive, negative, and boundary test cases for authentication, access control, and transaction limits.
- Built Selenium automation framework using Page Object Model (POM), TestNG, and Maven.
- Worked with developers and analysts to triage defects, support UAT, and improve release readiness.

TECHNICAL SKILLS

- Testing Tools: Selenium WebDriver, Postman, REST Assured, TestNG, Maven
- Testing Types: Functional, Regression, Smoke, Sanity, API, System, Manual, Automation
- Others: Java, SQL, Git, Jira, GitHub Actions, GitLab CI/CD, Agile Scrum

CERTIFICATIONS/INTERNSHIPS

- Software Testing (Manual + Automation) – VCTC, Pune
- Virtual Internship – LetsGrowMore (Oct 2023 – Mar 2024)

LANGUAGES

- English & Hindi – Professional Working Proficiency
- Marathi – Native Proficiency
